The Flush Door has the only dedicated open-out flush door sash on the market, perfectly complementing the Heritage Flush Window.

The Heritage flush door is the ideal solution for capturing a beautiful timber door aesthetic, without having to worry about any of the headaches that come with an outdated design.

To ensure an exceptional degree of quality is ensured throughout the whole design, this door is manufactured with our G17 award-winning flush sash window. This means that you can enjoy the benefits of a dedicated sash profile design and premium craftsmanship.

Due to their timeless appeal, our Heritage flush door can be tailored to suit both modern and traditional homes alike. This is made possible through a wide range of colours, finishes, and hardware options to capture a personal touch.

Lasting Quality

by the sash fitting flush within protrusion. This design has traditional timber joinery, replicating techniques to secure a look per door. In turn, this means that look to your home that really complementing your architecture with a across the generations.

These doors are able to current standards of thermal efficiency, design, and performance. By achieving the best in traditional design.

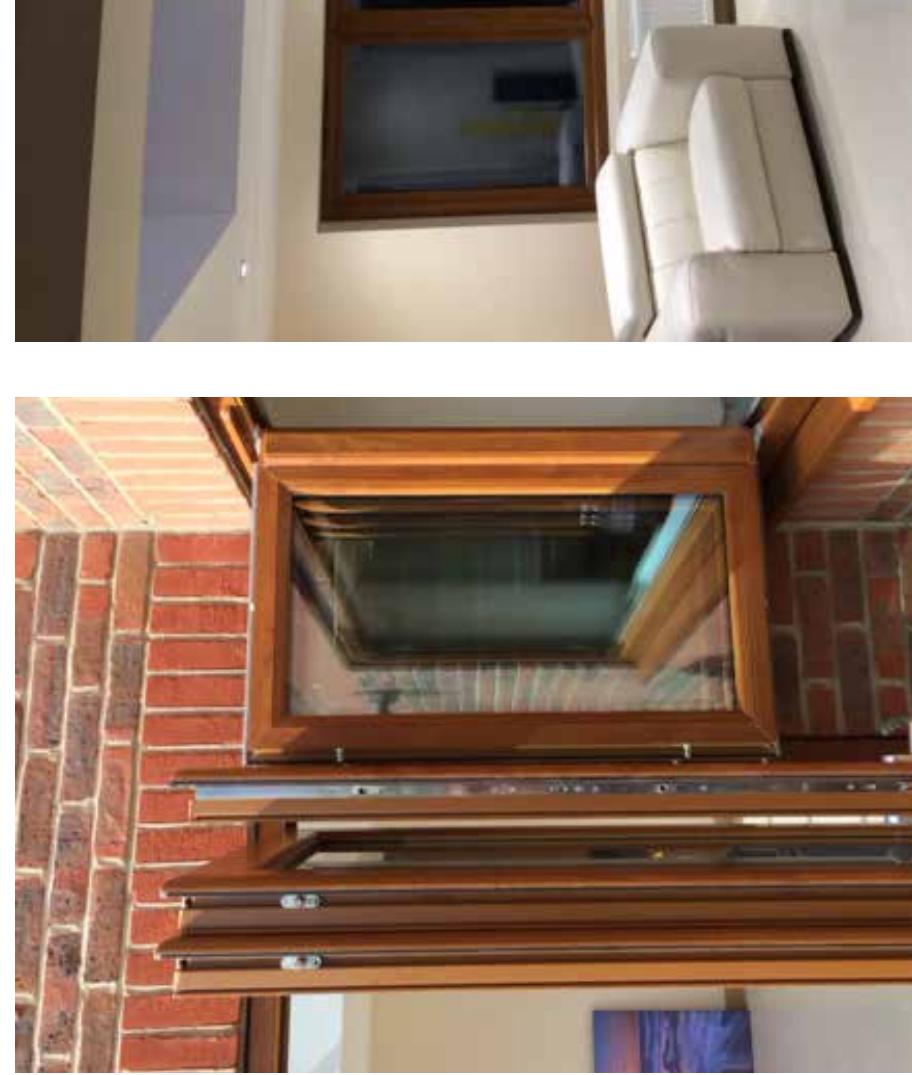

Approved Hardware

This door comprises a traditional butt hinge and features an integrated lock. For an enhanced degree of security, it is fitted with a 3-hook lock with a integrated bottom shoot-bolt with a

There were many problems that accompanied traditional timber doors which compromised their lifespan and ruined the overall look. Our Heritage flush door captures the true essence of a beautiful timber door without having to worry about the warping, cracking, discolouring, rotting or bowing that has made the material infamous. Not only does this mean you can enjoy trouble-free high quality, it also means that the door will maintain a longer and fuller lifespan than isn't cut short by a failing structural integrity.

Adding a Splash of Colour

The colour choice across our Heritage flush doors offers you the freedom to get the right look to suit your home and your tastes. This means that it won't matter if your home is modern, traditional, period, or new build, you'll be able to bring a seamless new addition that complements across the board. Further to this, and for your peace of mind, these colours will retain their richness even through the natural wear and tear of weather and time. Our doors will prove to be a worthwhile investment, bringing aesthetic appeal long

ing INVISIFOLD

the patented, innovative new solution for patio doors. The sashes fold back to the opening, offering barrier-free access, the sashes do not run along, after the main frame. Instead, after the main frame is opened, each sash slides

Alternatively move only some of the sashes to the open position and have a split opening. The choice is with the end user to position the sashes as they wish, offering more flexibility in use than a traditional bi-folding door.

Benefits at a glance

- Sashes fold back to provide barrier-free living
- Hinges, sliding and interlocking components are concealed within the frame rebate leaving just the clean lines of the profile
- Clever design with i-Bolt interlocking devices provides excellent security and weather performance
- Utilises standard profiles
- Refer to systems company for max. sash height
- No limit to the quantity of sashes
- Inward or outward opening with the same hardware
- Independently tested to PAS24:2012
- Document Q compliant subject to profile and main passage lock used

the main sash is opened, the move the sliding sashes

main sash is opened, the move the sliding sashes
